

REALTOR.ca APP Features for Windows® Phone 7

With the introduction of the free REALTOR.ca app, consumers now have the ability to check out houses whenever they want, wherever they want. The portable, on-the-go information that the REALTOR.ca app provides makes the home and property hunt that much easier.

The REALTOR.ca app provides house hunters with the functionality of REALTOR.ca while taking advantage of Windows Phone 7 device features such as GPS.

Windows Phone 7 Highlights:

- Users can search for houses and properties across Canada.
- Connect with REALTORS® to view, buy or sell a property.
- Photos, newly listed properties and open house information are all available.
- Handheld GPS technology lets users search for properties near their location and get driving directions too.
- Embedded interactive BING mapping allows consumers to focus on specific neighbourhoods.
