

DATA DISTRIBUTION FACILITY (DDF®) POLICY AND RULES

Revised: October 2019

Policy:

Data Distribution Facility (DDF®) Overview

CREA has created a Data Distribution Facility (DDF®) to enable CREA's members to easily disseminate MLS® listing content to multiple websites, and to ensure that MLS® listing content that is displayed on these websites is accurate, up to date, and uses CREA's trademarks correctly.

The DDF® is permission based and consists of several listing distribution channels: a National Shared Pool channel; a National Franchisor Pool channel; a Member Feed channel; a Real Estate Advertising Website channel; a Partner channel; and a Franchisor Direct Feed channel. Participating brokerages and salespeople can access a dashboard on REALTOR Link® to indicate where they want to send their listing information and how much information they want to send.

Structure of the Data Distribution Facility (DDF®)

1. The listing distribution channels are as follows:
 - a) National Shared Pool channel – Participants can contribute their listings to a national data pool and receive a feed from that pool to display all other participants' listings on their websites.
 - b) National Franchisor Pool channel – Participants can contribute their listings to a national data pool that is displayed on a number of franchisor websites.
 - c) Member Website Feed channel – Participants can receive a data feed of their listings, or a data feed of all their brokerage's listings, to display on their own website and to create marketing materials.
 - d) Real Estate Advertising Website channel – Participants can choose to send listing content to a number of real estate advertising websites.
 - e) Partner channel - Participants can make their listing content available to CREA partners, which may then be displayed on the partner's website or tool.
 - f) Franchisor Direct Feed channel – Participants that are franchisees can choose to send listing content to their franchisor.

Participation

2. Board Participation

- a) Participation in the National Shared Pool channel, National Franchisor Pool channel, the Partner channel, and the Franchisor Direct Feed channel is mandatory for all Boards/Associations. Boards/Associations must:
 - i) Provide or authorize a feed of the listings of their members who are participating in the DDF® to CREA; and
 - ii) Adopt and enforce the DDF® rules established by CREA.
- b) Boards must participate in the Member Website Feed channel and the Real Estate Advertising Website channel unless they provide a facility to their members that CREA determines to be comparable.
 - i) In general, a comparable facility for the Member Website Feed channel is one that enables members to retrieve their listings.
 - ii) In general, a comparable facility for the Real Estate Advertising Website channel is one that enables members to have their listing content distributed to real estate advertising websites.

3. Brokerage Participation

- a) Brokerages have the option to participate or not to participate in any listing distribution channels in the DDF®.
- b) Brokerages that have opted in to any of the listing distribution channels will also be able to set permissions for the salespeople working in their offices.

4. Salesperson Participation

- a) Salespeople have the option to participate in DDF® independent of their brokerages if:
 - i) The salesperson's brokerage is participating in DDF® and has given the salesperson permission to participate in DDF®; or
 - ii) The salesperson's brokerage is not itself participating in DDF® but has opted in for the purpose of giving its salesperson(s) permission to participate in DDF®.

Listing Content included in the DDF®

- 5. The listing content in the DDF® will consist of only the fields provided by Boards/Associations for display on REALTOR.ca or a subset of those fields as determined by CREA.
- 6. Geocodes will only be included in the DDF® listing content if Boards/Associations have the right to sublicense the use of their geocodes to CREA and they opt-in to providing the geocodes for this purpose through the DDF® Dashboard.

Enforcement

7. Boards and Associations that operate MLS® Systems must adopt and enforce the DDF® Rules established by CREA.
8. A Board/Association or CREA may suspend or terminate a participant's access to the DDF® or disable DDF® functions and features for that participant if it is determined that there is a violation of any rule, regulation, or policy of the Board/Association or CREA.
